SHOT IN THE FOOT.

Some excitement was caused in the vicinity of Market space about four o'clock yesterday evening by the report of a pistol in a nearby house, and the subsequent announcement that a man had been shot. A crowd soon gathered when it was ascertained that Carlton Acton, a telegraph operator, had been shot in the left foot by a young man named Kenneth Baggett, a butcher in the city market. Officer Schueni, immediately after the shooting, placed Acton in a carriage in which he was taken to the Alexandria Hospital, where he was attended by Dr. Warfield. He was later taken to his home, 605 Princess street, where Dr. Jones, the family physician, took charge of the case.

The statements in connection with the shooting vary somewhat. Some say the shooting was accidental and others that it was due to the temporary irresponsible condition of Baggett. The latter subsequently surrounded himself to acting Lieutenant Roberts. He was kept at the station house during the night and had not given bond at 3 o'clock this afternoon.

The case was called, but as Acton was unable to be present, it was continued. It is said that Mr. Acton's wound is not serious and Mr. Baggett declares that he had no intention whatever of shooting Mr. Acton.

TO SERVE FOUR MONTHS IN JAIL.

A young man, who came to this city from Baltimore four days ago, mounted a bicycle belonging to a youth named Harry Rose, while it was standing in front of No. 304 King street, yesterday evening and rode away. The stranger turned into Fairfax street, thence into Prince, thence into Royal and finally King street and he ran the machine up that thoroughfare as fast as he could pedal it. By this time the owner and several youths gave pursuit and the thief was closely followed. The police of Washington had in the meantime been notified and given the number of the wheel, and by the time the Baltimorean reached Georgetown he was in the hands of the police. Officer Garvey later went to Washington and brought the wheel and the prisoner to this city. The thief gave his name as James Smith, but this is not believed to be his name. He was brought before the Police Court this morning when he refused to make a statement, and was sentenced to jail for four months.

POLICE COURT.

[Justice H. B. Caton presiding.]
The following cases were disposed of this morning:

Roland Dawkins, colored, suspected of stealing a wrench from the B. & O. R. Co., had his case continued.

A white man, arrested on complaint of his wife, forfeited his collateral by failing to appear.

Kenneth Baggett, charged with shooting Carlton Acton, had his case continued.

James Smith, charged with stealing a bicycle from Harry Rose, was sent to jail for four months.

George Ford, colored, charged with stealing articles in the city market, was dismissed.

REPLACING THE DIAL.

Mr. J. W. Darrall, of the E. Howard Clock Company, has arrived here from New York and he was busy engaged today in arranging for placing a dial in the west front of the steeple of the City Hall. He says he will have it in position and in working order in time for the parade Thursday.

PAID THEIR FINES.

The two white men who were arrested Sunday charged with unlawfully dispensing liquor in the old City Hotel building and who were fined \$50 each in the Police Court yesterday morning, finally concluded to pay the assessments. They at first considered the advisability of taking an appeal to the Corporation Court.

OPERA HOUSE.

The Opera House has been extensively improved and remodeled, and will be opened in the near future under the name of "The New Opera House," as a strictly high class vaudeville and motion picture theatre. The entire entrance to the theatre has been changed and its appearance and comfort vastly improved. The former narrow and steep staircase to the auditorium has been replaced by wide, easy steps ascending from a low balcony, which is reached by two short broad flights, one at either side of the lobby. A large box office with curved front is located between these two flights, and is surmounted by a curved railing, which encloses a part of the balcony. The foyer is finished in buff with green wainscoting and trimmings; the ballusters of the stairs and balcony are cream with mahogany hand rails and newels. The auditorium of the theatre has been completely renovated. The finish is in the same scheme as the foyer—buff and green. The electric wiring has been entirely renewed, making the building proof against fire from this source, and tungsten lights have been installed, which will increase the brilliancy of the illumination to a marked degree. An excellent musical team has been engaged for the season. Arrangements have been made with J. F. R. Nirdlinger, of Philadelphia, Pa., representative of the Nixon theatres, for the booking of vaudeville attractions of the highest class, and a contract has also been made for the best and most exclusive films known to the motion picture world. Perfect order will be maintained at all times in every part of the time.

100 pair ladies fine shoe worth \$3.50 and \$4.00. They are our best makes, but a little off as to style, 98 cents. J. A. Marshall & Bro., 422 King street.

British Militarist Campaign.

London, Aug. 23.—The British militarist campaign in favor of conscription in taking definite shape so rapidly that it will probably succeed, it is being pushed by the Tory press generally, but more especially by the ultra-conservative London Express, which may fairly be taken as the mouthpiece of the "universal service" movement.

The express urges explicitly "that every male should undergo a minimum of one year's training, subject to physical fitness and condition, period to be extended to two or more years until a certain standard of efficiency be attained."

The "upper classes," do not, although militarists almost to a man, intend to be transformed into conscripts along with the "lower classes" unless they choose. The proposition is to allow exemption upon payment of a tax.

To the "upper class" English mind there does not appear to be anything unfair in this arrangement, the typical holding that a "gentleman" is entitled to privileges which the "common herd" ought not to have because they would not be good for it. And the "common herd" is generally inclined to accept this reason as perfectly logical. No concealment is made of the fact that the militarist activity is in anticipation of making the issue an important one in the next general election, early next fall.

Will Oppose Governmental System.

London, Aug. 23.—A definite alignment of the British working classes against the present governmental system, with anti-militarism as its inevitable goal, is believed today to be foreshadowed in the announcement yesterday by the labor conference that it will demand a change in the law that prohibits labor unions from assessing their members for the benefit of the parliamentary representatives.

Tom Collins' "Never Again"

Bayonne, N. J., Aug. 23.—Recorder Mara, in the Police Court yesterday administered the shortest temperance pledge on record to Thomas Collins, of the Boulevard, who was arrested for being drunk. Collins said he was ready to swear off. The recorder said: "Hold up your right hand and repeat after me, 'Never again.'" Collins raised his hand and in a deep voice said, "Never again." He was then discharged.

LOCAL BREVITIES.

A meeting of the Columbia Steam Fire Engine Company will be held tonight.

Charles Williams, colored, was arrested today by Officer Ferguson who recovered 186 fertilizer sacks which had been stolen.

Ocoquan creek is being dredged to the site of the new workhouse which the District of Columbia will erect in Fairfax county, opposite the town of Ocoquan.

Civil service examinations will be held on September 21 for packer and operator of electric delivery wagons, bureau of standards; telephone operator at Indian Head; copperplate map engraver, Coast and Geodetic Survey; and on October 5 for medical intern, Government Hospital for the Insane.

Select Soft Shell Crabs on toast and Dressed Crabs with Spinks's Cafe, Prince and Royal streets.

MOTOR BOAT NOTES.

The forty-foot motor boat built at Poughkeepsie for Mr. Edward Hatch, of New York, has arrived in this city. The boat is to be equipped by the Emerson Engine Company with an eight-cylinder 300-horse-power engine. The boat, which is to compete for the international prize, is built of mahogany and is joined with bronze screws, no nails having been used in its construction.

Mr. A. Traver, vice-president of the Poughkeepsie Yacht Club, is in this city. He will this evening test a high-speed boat recently built by the Emerson Company. The boat is equipped with an aerial engine, and it is to be shipped to Cincinnati shortly where it will compete for the western championship for boats of that class. From previous feats of this craft, it is believed it will carry off the prize.

RECEIVED.

Mr. George S. Hinkins, for the past seven years local freight agent for the Southern Railway Company in this city, has resigned to accept a position as general manager of the Belle Re Glass Company. Mr. Hinkins' resignation will take effect tomorrow and he will be succeeded by Mr. Chas. A. Ervin, for many years chief clerk at that office. The many friends of Mr. Hinkins wish him success in his new field.

LIQUOR DESTROYED.

The liquor, whisky and beer, which was captured on Sunday by police officers who raided two houses was today dumped into the sewer in the station house. The bottles were opened and their contents allowed to drain into the sewer, the fumes in the meantime pervading the entire neighborhood and attracting many lookers-on who gazed longingly at what they thought was a willful waste of raw material.
